

## Antique Brass – Living Finish

Antique Brass is a living finish. This means that the finish will naturally lighten along edges and surfaces of frequent contact over time. Initial care for this finish requires only mild detergent, water and non-abrasive cloth. Wiping gently in circular motions and drying with a clean, soft cloth. Monthly cleaning is recommended for general hygiene and preservation of the finish.

**UNDER NO CIRCUMSTANCE SHOULD YOU USE HARSH DETERGENTS, ABRASIVE CLOTHS, PAINT THINNERS OR COMPOUNDS FOR CLEANING THIS FINISH. AS IT WILL CAUSE SCRATCHING, DISCOLORATION AND HAZING OF THE FINISH.**

A high-quality beeswax or brass polisher may be used intermittently to help preserve the finish and highlight the natural features. Apply with a soft cloth.
